## Introduction

- These guidelines are intended to enable practices, assessment bodies, assessors and consultants to calculate the duration of a Lexcel assessment.
- The durations stated below replace all previously published duration and sample guidelines. All assessments must adhere to these guidelines. Any deviation from these guidelines must be approved by the Lexcel Office in advance of an assessment. The Lexcel Office will monitor consistency of their application.
- The definition of a fee earner includes both admitted and non admitted fee earners, as well as trainees who undertake fee earning work.

## Lexcel - Duration of assessment and samples guidance

### 1. Factors affecting durations

The duration and sample guidelines apply to the practices as a whole. The total number of fee earners and support staff must be added across all branch offices.

The main factors affecting the length of the assessment is the number of:

- staff
- practice areas
- other quality standards held (e.g. Investors in People or ISO9001)

### 2. Preparation and report writing time

Preparing for an assessment is an important element of the assessment process. Assessors should allow a total of between **half a day to one day's preparation and report writing** time for initial, annual maintenance visits and full re-assessments.

Preparation should include reviewing the office manual, previous assessment reports (if applicable), selecting the interview sample and drafting the assessment plan.

### 3. Travel time

These guidelines **do not reflect travel time** to and from the on-site assessment. If the practice has multiple offices the assessment body and practice should agree how much time will be allocated to the assessor for travel and the associated cost.

### 4. Offices and work areas

**All offices and work areas must be included in all initial, AMVs and full re-assessments.** It is, therefore, compulsory that all offices are attended by the assessor, interviewed and file samples are taken across each office and work area.

### 5. Annual Maintenance Visits (AMV)

The duration for an AMV is approximately half that of an initial assessment.
